

# OpenBIS to Seek

**A Read-Only synchronisation: Seek is fetching from OpenBIS**

## Set-Up

- In OpenBIS

A new “manual” user, i.e. with a password, not an LDAP user for instance. With role “INSTANCE\_OBSERVER” or less (need to be able to fetch at least 1 space).

Connection is done using the OpenBIS API (Java) through HTTPS-> No special firewall rules needed.

- In Seek

1. As administrator, enable the feature: Server Admin -> Enable/disable features -> openBIS enabled
2. In a project -> Actions -> Administer openBIS -> Add or manage OpenBIS Spaces

How to set-up and use: <https://docs.seek4science.org/help/user-guide/openbis.html>

Demo!
